Architectural Engineering Technology

Built Environment Department

Description of major: The Architectural Engineering Technology (ArET) Program provides an education that combines an understanding of the philosophy of building design with an applied technical knowledge of construction systems and materials acquired in a technical-oriented studio structure. Students will explore a variety of tools to perfect their verbal and graphic communication techniques and enhance their problem-solving skills necessary to enter careers in the planning, design, construction, operation, and maintenance fields of the built environment.

Math Requirement: Calculus I

Science and Lab Requirement: Physics I

Hands on/Lab Based: No

Theoretical/Analytical: Yes

Distance Program: No

Accreditation: Higher Learning Commission

Popular Jobs Associated: Technologists and Managers for Architects, Engineers, City Planners, Interior Designers, Construction Managers, and Facilities Managers

Average Salary Range: Varies
