

An Introduction to Mobile Tickets

Mobile is where the action is! Most Ticketmaster traffic now comes through a mobile device.

The mobile revolution has given power to engaged fans transforming the way they discover, manage and experience live entertainment.

Discover

Any smartphone or tablet user can easily access their tickets!

Discover all Indiana State University ticketed events in one place through your MySycamore Account.

User experience is optimized with improved search, purchase and management capabilities.

Manage

Conduct all ticket transactions with your device. You can purchase or transfer tickets via your phone.

No need to wait on a late guest or friend at the gate; with mobile tickets, you can easily transfer their ticket to them prior to the event with your smartphone.

Experience

Mobile tickets allow fans to scan their tickets directly from their phones at the gate for event entry, eliminating long lines.

Want to get started with mobile tickets today? Sign in to your MySycamore Account with the link below!
