

Horticulture A-Z

In this course, we will explore a wide range of horticultural practices with something to offer no matter our experience level or where we live. We will cover container gardening, aquatic gardens, ornamental and fruiting plants, bonsai, landscape design, and pest management. Each week, we will focus on a theme and examine design ideas, plant choices, and long-term care practices for success. Whether we garden on 10 acres or in an apartment, we will find plenty to learn and enjoy in horticulture.

YOUR INSTRUCTOR: Chris Baker

Chris Baker has worked in horticulture for 15 years, including as a horticulturist at the National Aquarium in Baltimore and as Curator of Bonsai at the Chicago Botanic Garden. He focuses on the use and benefits of native plant species and sound, eco-friendly horticultural practices. Baker studied with bonsai master Torho Suzuki at the Daiju-en Nursery in Japan. He is President of the North American Bonsai Federation and a board member of the World Bonsai Friendship Federation.
