Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2023-24.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2023-24

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Elementary Education majors complete a one semester practicum the semester before student teaching. Secondary/all-grade majors complete two 5-week early field experiences one at a middle school and one at a high school) prior to student teaching. Candidates also complete other course based field experiences early in their programs. Candidates are exposed to a variety of diverse experiences including schools with varying socioeconomic status, ethnicity, rural and urban schools, special education populations, ELL students, and diverse grade band experiences. Additionally, candidates complete course based assignments throughout their program that require them to identify the diverse needs (including socioeconomic status) of their classroom, school and community. The Teacher Education Advisory Council meets three times per academic year. Members represent various school districts across the state. The council shares the needs of the schools in their districts including upcoming open positions, trends and suggestions for

programmatic changes. This ongoing collaboration allows the teacher preparation program to make curriculum change to better meet the needs of the districts we work with.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in mathematics in 2023-24?

If no, leave remaining questions for 2023-24 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The 2023-2024 was to continue recruiting students through the traditional route (high school students) and through the new Secondary Transition to Teach program which started in Summer 2023.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Math faculty plan to engage in more intentional recruitment efforts

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in mathematics in 2024-25? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

The 2024-2025 goal is to increase the number of math education majors by 10%. This will include recruiting for both the traditional high school student and career changers into the transition to teaching program.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in mathematics in 2025-26? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

The 2025-2026 goal is to increase the number of math education majors by 10%. This will include recruiting for both the traditional high school student and career changers into the transition to teaching program.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year's Goal (2023-24)

1. Did your program prepare teachers in special education in 2023-24?

If no, leave remaining questions for 2023-24 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

The Special Education program recently revised their undergraduate curriculum and was recently approved by the State Board of Education to offer a Special Education Transition to Teach program which started Summer 2023. The program will continue to recruit both traditional high school students and non-traditional students into the special education programs. The EPP partnered with two school districts to develop cohorts for the special education transition to teach program.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

The program faculty and academic advisors have focused on increasing enrollment in the special education minor and encourages students who enter the institution with a significant amount of dual credits, to double major in special education and elementary education.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2024-25)

7. Is your program preparing teachers in special education in 2024-25? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

The 2024-2025 goal is to continue to work with local school districts to develop cohorts for the Special Education T2T programs.

Set Next Year's Goal (2025-26)

9. Will your program prepare teachers in special education in 2025-26? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

The 2025-2026 recruitment goal is to increase the number of students enrolled in the special education major.

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

 Yes

 No

- b. use technology effectively to collect data to improve teaching and learning

 Yes

 No

- c. use technology effectively to manage data to improve teaching and learning

 Yes

 No

- d. use technology effectively to analyze data to improve teaching and learning

 Yes

 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

As noted in last years report, one faculty members continues to participate in the Center for Innovation, Design, and Digital Learning (CIDDL) Tech Alliance Grant is underpinned by a compelling rationale necessitated by imperatives of inclusive pedagogical practice. Key Initiatives in the ISU CIDDL Tech Alliance Grant: • Enhance proficiency of postsecondary faculty in instructing preservice educators on the utilization of educational technology to foster more inclusive instructional practices. • Conduct a needs assessment to identify pertinent areas for improvement within the department's curriculum and instructional practices. • Collaborate and develop a technology integration rubric tailored for faculty's self-assessment of syllabi, facilitating a structured evaluation of instructional methodologies. • Conduct a gap analysis of special education introductory course syllabi utilizing the technology integration rubric to discern areas necessitating enhancement. • Furnish educators with tangible models of pedagogical approach influenced by the integration of educational technology. Information learned through this grant participation is shared with all education faculty. Candidates are encouraged to utilize technology in their placements. The EPP encourages partner districts to allow candidates the ability to use technologies in the building in which they are placed in.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All teacher education candidates take SPED226 Catalog Description: "An overview course dealing with the various exceptional learners who might be mainstreamed into the regular educational program, both elementary and secondary. Emphasis is placed on understanding the exceptional learners as well as cooperative roles which educators must jointly fill in providing an appropriate education for exceptional learners". Candidates learn about the various exceptional learners who might be included in both elementary and secondary general education settings. Included are the laws in support of individuals with disabilities, IDEA, components of an IEP, and the cooperative roles which educators must jointly fill in providing an appropriate education for exceptional learners. Candidates participate in simulations related to IEPs, case conferences, and special education law.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

With a recent elementary education revision, two previous courses SPED 215 and SPED 321 were removed from the ELED curriculum. All education students take SPED 226. Candidates learn about the components of an IEP and complete activities. Students participate in a simulated mock conference to communicate their practicum data assessment and intervention process in support of their collaboration and teaming role. Students write a reflection on the simulated experience to foster diversity and development as a reflective professional practitioner. Students participate in a computer simulated Annual Case Review (ACR) in which they must make decision connected to key areas of discussion highlighted within the Individuals with Disabilities Act (IDEA), and students create a draft IEP utilizing the Indiana IEP online system based on a their syntheses of a case study.

c. Effectively teach students who are limited English proficient.

All teacher education candidates take a multicultural course which addresses the needs of students who are limited English proficient. Many elementary education candidates take a course on language acquisition as part of their minors. Elementary education majors are also exposed to and have opportunities to work with students with limited English proficiency in several courses throughout their program. In SPED 226: Candidates learn about multicultural perspectives that includes instructional supports for students who are limited English proficient.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

SPED 215: Candidates learn how to collect behavioral data and implement positive behavior supports in a practicum setting. This occurs while providing after-school tutoring to elementary students. SPED 226: Candidates learn about the various exceptional learners who might be included in both elementary and secondary general education settings. SPED 311: Candidates learn about Special Education Assessment and procedures.

SPED 314: Candidates learn how learning disabilities can impact a student's ability in math. Candidates develop knowledge and skills in the evidence-based practice for teaching students with disabilities math. Candidates use micro-teaching and video-analysis for self-evaluation of their teaching. The course culminates with the candidates teaching students with disabilities math in a school setting. SPED 318: Candidates learn about supporting individuals who struggle in reading and literacy skills. Candidates develop knowledge and skills in using evidence-based practices for teaching students with disabilities in reading. Candidates use micro-teaching and video-analysis for self-evaluation of their teaching of reading lesson plans. The course culminates with the candidates teaching students with disabilities in reading, in a classroom setting. SPED 321 Special Education Law and Procedures - 1. Lectures, learning activities, and weekly assessments are provided to give an overview of the historical aspects of special education and the implications for all teachers today, 2. Lectures, learning activities, and weekly assessments are provided to address federal and state legislation, and significant court cases, 3. Students utilize a lesson plan template when developing a thematic unit requiring components of UDL be addressed in lessons, 4. Students are assessed on the incorporation of individualized IEP goals based on a case study within their thematic unit, 5. Students demonstrate conceptual knowledge of special education law by creating a topical discussion presented as a podcast along with an annotated transcript citing references to the learning objectives of the course. SPED 400: Candidates learn about strategies in supporting secondary students with disabilities, in various settings. Students learn about and present collaborative partner lesson plans, in an online platform. Students learn about the interconnectedness among the secondary school, the community, and the family. Candidates learn about preparing students to make transition to adult living.
