3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.5

4. Please provide any additional information about the information provided above:

Admission requirements for a transition to teaching program are determined by the Indiana Dept of Education. Although the EPP requires an admission GPA of 2.7 for graduate coursework, the IDOE permits students with a 2.5 GPA to be admitted to a transition to teaching program with a 2.5 GPA and either 5 years of professional experience or passing the content licensure exam prior to admission.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2024-25. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2024-25.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2024-25

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2024-25. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

Note: This section is preloaded from the prior year's IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

Transition to Teaching programs are focused on providing the pedagogy necessary to be an educator. Elementary and special education T2T students take 24 credits (including student teaching) and secondary T2T students complete 18 credit hours (including student teaching). These concepts are incorporated throughout the coursework depending on the program.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Continue to increase interest in the special education transition to teaching programs through preferred partner recruitment events.

Annual Goals: Instruction of Limited English Proficient Students

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- Yes
- No

If yes, please specify the organization(s) that approved or accredited your program:

- State
- CAEP
- AAQEP
- Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- Yes
- No

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. ([§205\(a\)\(1\)\(F\)](#))

Does your program prepare teachers to:

- a. integrate technology effectively into curricula and instruction

Yes
 No

- b. use technology effectively to collect data to improve teaching and learning

Yes
 No

- c. use technology effectively to manage data to improve teaching and learning

Yes
 No

- d. use technology effectively to analyze data to improve teaching and learning

Yes
 No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

As a transition to teaching program, the majority of candidates are in their own classroom as teachers of record from the beginning of their program. Candidates utilize the technology available in their schools for lesson plans, data collection, and data analysis. Candidates are expected to adhere to district policy regarding data security and safety. Additionally, technology is integrated throughout coursework and field experiences. Candidates apply assistive and instructional technologies, including tools introduced through SPED 607 modules on UDL, differentiation, and assistive technology, to design accessible learning environments. UDL principles are embedded across coursework through instructional design tasks requiring multiple means of engagement, representation, and expression, reinforced through assignments in differentiation, accessibility, and assistive technology integration. Special Education candidates collect, analyze, and interpret behavioral and academic data to inform instructional decisions, including program evaluation and case-based analysis. SPED 624 emphasizes assistive technology assessment and implementation, while SPED 698D requires data-informed IEP development aligned with legal standards and progress monitoring.

Teacher Training

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Note: This section is preloaded from the prior year's IPRC.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Transition to teaching candidates take a special education course that provides an overview of exceptional learners that might be mainstreamed into the regular education classroom. SPED 607: Disability and Diversity in Today's Schools. Candidates engage in a structured progression from foundational knowledge of special education law and IEP processes to application of instructional practices. Coursework includes analysis of IDEA, procedural safeguards, and case law (e.g., Endrew), followed by application through assignments addressing specific disability categories, trauma-informed practices, and MTSS frameworks. Candidates complete applied tasks such as an interview paper (family or educator perspective), evaluation of a special education program, and assignments focused on adaptations, differentiation, UDL, assistive technology, and co-teaching.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

2. Does your program prepare special education teachers?

Yes

No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

SPED 602: Positive Supports for Social, Emotional, and Behavioral Development. Candidates apply advanced behavioral analysis and positive supports to design and implement individualized and classroom-based interventions. Coursework requires collection and analysis of behavioral data,

development of functional behavior assessments (FBA), and implementation of behavior intervention plans (BIP) grounded in evidence-based and trauma-informed practices. SPED 607: Disability and Diversity in Today's Schools. Candidates engage in a structured progression from foundational knowledge of special education law and IEP processes to application of instructional practices. Coursework includes analysis of IDEA, procedural safeguards, and case law (e.g., Endrew), followed by application through assignments addressing specific disability categories, trauma-informed practices, and MTSS frameworks. Candidates complete applied tasks such as an interview paper (family or educator perspective), evaluation of a special education program, and assignments focused on adaptations, differentiation, UDL, assistive technology, and co-teaching. SPED 626: Collaboration Strategies. Candidates develop co-teaching, consultation, and problem-solving skills through applied assignments and field-based collaboration to design and implement instructional adaptations. SPED 627: Methods in Special Education. Candidates design and implement instruction using high-leverage practices, including assessment, specially designed instruction, evidence-based practices, assistive technologies, and adaptations. Candidates complete a UDL-aligned unit plan. SPED 624: Assistive Technology. Candidates develop competency in selecting and implementing assistive technology to support academic and functional outcomes through applied assessment and case-based planning.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SPED 698D: Topics in Special Education Law. Candidates analyze federal and state legal systems and complete a scaffolded IEP development process across the semester, including present levels of performance (PLAAFP), eligibility, goals, services, and transition planning. Candidates finalize a compliant IEP informed by case study analysis and legal standards. SPED 607: Disability and Diversity in Today's Schools. Candidates examine IEP processes and procedural safeguards while applying legal and ethical decision-making through case-based assignments and program evaluation tasks. SPED 624: Assistive Technology. Candidates conduct assistive technology assessments and develop recommendations aligned with IEP planning and implementation.

c. Effectively teach students who are limited English proficient.

SPED 607: Disability and Diversity in Today's Schools. Candidates examine the intersection of disability, culture, and language through coursework addressing diverse learner profiles, communication disorders, and culturally responsive practices. Assignments emphasize instructional adaptations, differentiation, UDL, and assistive technology to support equitable access for multilingual learners. ELED 682: High Leverage Literacy Practices. Candidates apply structured literacy practices and assessment strategies through case-based learning. Coursework requires analysis of student data, implementation of targeted interventions, and evaluation of instructional impact for diverse learners, including multilingual students. SPED 624: Assistive Technology. Candidates evaluate technologies that support language development, communication, and access to instruction for diverse learners.
