

Beginning in 2025, EPPs will no longer receive teacher effectiveness data from the Indiana Department of Education. Data for this outcome measure will come from the EPP created Completer Survey. The 2024-2025 data are not yet available. Surveys from the 24-25 completers have been distributed and data will be available at the beginning of the fall semester (mid August). Once the EPP closes the survey and reviews the data, the website will be updated.
