Course Descriptions: *All courses are Blended Learning, requiring the study portion to be completed online before attending the class. Website links will be emailed prior to the class.

Lifeguard Certification

- At the American Red Cross, our water safety and lifeguarding courses are designed and taught by industry-leading professionals who can help you not only help others stay safe in, on, and around the water, but can help you learn the latest safety and rescue techniques, and deliver critical care, like CPR, first aid, and AED administration, when it's needed most. And although every class varies, each will cover a variety of important skills that can not only help you stay safe and help others enjoy the water safely, but can help you begin, or advance, your career.

Course Prerequisites To participate in the Lifeguarding (Including Deep Water) course, participants must:

- Be at least 15 years old on or before the final scheduled session of the Lifeguarding course.
- Successfully complete the two prerequisite swimming skills evaluations:

o Prerequisite 1: Complete a swim-tread-swim sequence without stopping to rest:

- Jump into the water and totally submerge, resurface then swim 150 yards using the front crawl, breaststroke or a combination of both. (Swimming on the back or side is not permitted. Swim goggles are allowed)
- Maintain position at the surface of the water for 2 minutes by treading water using only the legs
- Swim 50 yards using the front crawl, breaststroke or a combination of both

o Prerequisite 2: Complete a timed event within 1 minute, 40 seconds:

- Starting in the water, swim 20 yards. (The face may be in or out of the water. Swim goggles are not allowed).
- Surface dive (feet-first or head-first) to a depth of 7 – 10 feet to retrieve a 10-pound object.
- Return to the surface and swim 20 yards on the back to return to the starting point, holding the object at the surface with both hands and keeping the face out at or near the surface.
- Exit the water without using a ladder or steps.
