Immunization Form

Please upload this completed form at indstate.edu/secureupload or you may return it to:
Office of Registration and Records, 200 N 7th St., Terre Haute, IN 47809 or Fax it to: 812-237-8039.

This form must be completed in **ENGLISH** and signed by (1) the student (parent or guardian if the student is under age 18.) The form should also be signed by a medical provider. If the form is not signed by a medical provider, you MUST submit: (a) a physician's certificate; (b) immunization records forwarded from another school or postsecondary institution; (c) a certificate record maintained by the student or parent of the student showing the month/day/year in which each dose of vaccine was administered; or (d) evidence of having met alternative criteria.

Last Name _____ First Name _____ Middle Name _____ University ID # (XXX-XX-XXXX) _____ Date of Birth (MM/DD/YYYY) _____

Section 1: Measles/Mumps/Rubella

If you were born before 1957, you are considered immune to measles, mumps and rubella and are not required to complete this section. ALL students born in or after 1957 must complete either Box A, Box B, or Box C:

Box A: MMR Vaccination

First measles vaccination must have been after 12 months of age, and the second must be at least 30 days after the first dose.

Section 4: Tuberculosis

ALL International students are required to submit Tuberculosis (TB) screening information to Indiana State University. Students that are US Citizens are not required to submit this information. A QuantiFERON® blood test must be performed in the United States to be considered valid for Indiana State University. Testing is to be done within the first two weeks of the start of your first semester attending Indiana State University. Testing is available at the campus health center for a reasonable fee. Tuberculosis (TB) test results should be submitted separately from this form---with clear student identification on the test results---to the Office of the Registrar.

For Medical Provider: I attest the above information is correct and can be supported by medical records on file:
